

24.2.15

Dear Emma and team,

I am writing to say I had an amazing time at Beaham on our school trip. My favourite part of the day was when we got to eat some scrumptious marshmallows that were lovely and squishy. It was really enjoyable because you got to make some incredible sparkles. Also you helped us find some glist.

I've still got my glist at home and I love it. Every school would definitely want to do some activities with you and the team. I loved building the Stone Age Villages. I wish I could shrink down and live in ~~one~~ of these houses. It was the best trip in my entire life. Next time if the weather was better I would swim in the sea. When I had my hot chocolate I got a brown mustache and imagined I was a man with a brown mustache. You and I really did a great job. I really enjoyed the

trip. When we shared the slint I thought I
had a real bear. Thank you very much
I hope I come again.

Yours sincerely
